Letter No 3951/125 d 12th Nov/97
from the Insp Genl of Education

S I Edn.
FILE NO 34 of 1897-98
SERIES 1-2

With this letter the Insp Genl of Edn submits a programme of School buildings which have to be constructed in the near future.

In the Education Report for the year 1894-95 (para 69) the Insp Genl stated — "the want of suitable "accommodation is much felt in a large number of the Middle Schools of the Province. It is hoped that Govt will sanction a liberal "progression every year for the "construction of buildings for "Middle Schools

In para 17 of the Review on that Report, it was stated that the matter should form the subject of a separate communication

Pro 246-7/Ed 17 d 6 July 196 (para 10)

While passing orders on the Village School Fund Budget for 1896-97, Govt requested the Insp Genl "to draw up a 'regular programme spread 'over 5 or 6 years for the construct

"and special repairs of buildings
"for taluk schools, utilizing the
"unexpended balance of Rs. 62,000
"for the purpose"

In para 33 of the Education Report for 1895-96, the Insp. Genl dwelt at some length on the great want of School accommodation felt in all parts of the state, and announced to submit a separate Memorandum on the subject for the orders of Govt.

The present communication contains the promised Memorandum.

The cost of the School buildings to be paid for from the State Fund Budget (not including those to be debited to the P.W. Budget) is estimated at Rs. 2,45,024 out of which those most urgently required are put down at Rs 99946, or in round numbers, 1 lakh. The I.G. proposes that this 1 lakh should be provided in the Budgets of the 3 next years, and that thereafter, the normal provision of Rs 10,000 for Taluk Schools shd be raised to Rs. 30,000,

exclusive of special grants

The Village Schools which are to be constructed from the Village School Fund, have been divided into 5 classes, the estimates therefor ranging from Rs 400 to Rs. 2850 Plans for these diffr. descriptions of buildings, prepared by Mr. C J Dalal, Executive Engineer, Thanna, are submitted The estimated cost of these buildings is Rs 170198-

The balance at the credit of the Village School Fund on 1st July 97 was ——— 3,22,123
Deduct value of Govt. Securities of the nominal value of 2 lakhs ——— 214,559
Available balance 107564

The Dy. Educl. Inspr. proposes that out of the balance, 1 lakh be assigned for buildings and that Rs 70,000 still required to make up the estimated cost of the proposed buildings be specially granted by

Grant from State Funds

READ —

Letter No 3951—125 dated 1th November 1897 from the Inspector General of Education in Mysore—

I have the honour to submit herewith for the orders of Government a Memo dated 5th November 1897 on the present needs of school accommodation both in the State Fund and the Village Fund Schools of Mysore and to request that Government may be pleased to give early attention to this important subject —

MEMORANDUM ON THE PRESENT NEEDS OF SCHOOL ACCOMMODATION BY THE INSPECTOR GENERAL OF EDUCATION

Dated 5th November 1897

I submitted in para 83 of my Report on Public Instruction for 1895 96 my views on the pressing requirements of school accommodation all over the Province For the six years from 1889 90 to 1895 96 there was on an approximate calculation an increase of 9 476 pupils in the average daily attendance of Government schools while additional accommodation was provided for 3 190 pupils only during that period What happened in these years has I believe happened for a number of years The additional accommodation provided has fallen far short of the actual requirements With a view to ascertain the present requirements in the matter of school accommodation without reference to all prospective increases in attendance I sent circular letters to all Deputy Inspectors (A No 2070 121 and A No 2284 91) on the 5th September 1896 copies of which are appended to this Memo The Deputy Inspectors were asked to send in statements in a prescribed form of all schools which possessed unsuitable or insufficient accommodation and were in absolute need of new buildings extensions or improvements Schools already provided with suitable buildings whether belonging to Government freely given by the people or rented were not included in the Deputy Inspectors statements In the case of village school buildings the Deputy Inspectors were asked to form a rough estimate of the contributions the people were likely to make to their cost

2 From the Deputy Inspectors list two statements with such alterations additions and omissions as I considered necessary have been prepared one of all schools paid for from the State Funds and the other of schools paid for from the Village School Fund

3 *State Funds Schools* —In the case of Bangalore City I have included a building for the long contemplated Municipal High School and one or two buildings for the two Government Girls Schools A new building for the Channapatna High School has been sanctioned Its estimated cost irrespective of the cost of site is Rs 14 000 The items for these large schools bring up the total cost of new school buildings or improvements in the Bangalore district to be met from State Funds to Rs 76 900 In the list for the Kolar district I have provided Rs 14 000 for the new High School building for Chikballapur sanctioned by Government Order No 1389 8—Mis 418 of 28th June 1897 In the list for the Tumkur district I have not mentioned the cost of the new High School building for Tumkur sanctioned by Government Order No 485 8—Ed 18 dated 12th July 1897 as it will be provided for in the Budget of the Public Works Department In the list for the Mysore North circle Rs 2 000 for the improvement of the present Practising School building which is ultimately to be utilised for the Hindustani Practising School and Rs 10 000 for a new building for the occupation of the Kannada Practising School are included In the list for the Shimoga district is included a new building which is very urgently required for the Anglo Vernacular School Shimoga The plan and estimate for the building are ready and a good site has been purchased at a cost of Rs 2 500 The building is estimated to cost Rs 13 446 The school contains 507 pupil and has been held in one Government and two rented houses at very great inconvenience A new building ha been sanctioned for the Anglo Vernacular School Birthahalli It is in course of construction and a sum of Rs 3 362 is required this year to complete it This amount however has not been included in the statement of State Funds Schools as it will be sanctioned from the current year s budget In the Chitaldrug Town extensions and improvements for

the Taluk Kannada and Hindustani Schools at a cost of Rs 2,000, and a new building for an Anglo Vernacular School estimated to cost Rs 7,000, are required The latter building has recently been sanctioned by Government Order No 3722 4—Ed F 19 96 dated 20th September 1897 A large school house for the Davangere Anglo Vernacular School at a cost of not less than Rs 12,000 is urgently required In Hassan a new building is urgently required for the Saklespur Anglo Vernacular School at a net cost to Government of about Rs 5 000 after realising the value of the present dilapidated school house In the list for the Kadur district the cost of extending the Chikmagalur High School is omitted as it will be met from the Budget of the Public Works Department The buildings which are very urgently required are so marked in red ink in the column of remarks, and are estimated to cost Rs 99 946 The new buildings extensions and improvements required in all schools paid for from the State Funds are estimated to cost Rs 2,45 024 By districts the cost is distributed as follows —

	Rs
Bangalore	76 900
Kolar	33 000
Tumkur	38 579
Mysore North	23 600
Mysore South	15 899
Shimoga	14 046
Chitaldrug	29 500
Hassan	8 800
Kadur	4 700
	2 45 024

4 The works which are very urgently required are shown in the following statement their total cost comes to nearly a lakh—

	Estimated cost Rs
Channapatna High School	14 000
Chikballapur do	14 000
Kolar Girls School	3 200
Extension of old High School Tumkur	2 000
Nedatore Anglo Vernacular School	2 600
Improvement of Kannada Practising School Mysore for the Hindustani classes	2 000
A new building for the Kannada Practising School Mysore	10 000
Chamrajnagar Anglo Vernacular School	5 000
Shimoga Anglo Vernacular School	13 446
Extension of Harihar Anglo Vernacular School	2 000
Taluk Kannada School Hiriyur	4 500
Anglo Vernacular School Chitaldrug	7 000
Repairs of Chitaldrug Vernacular Schools	2 000
Davangere Anglo Vernacular School	12 000
Saklespur Anglo Vernacular School	5 000
Extension of Belur Anglo Vernacular School	1 200
	99 946

The other buildings, extensions and improvements given in the statement, are only less urgently required than those given in the above list The difference is only one of degree I submit that the pressing needs of the State Funds Schools can only be met by providing one lakh for buildings in the budgets of three successive years At the expiration of the three years the Normal provision in the budget for Taluk School buildings which at present is taken to be Rs 10,000, should be permanently raised to Rs 30,000 exclusive of special grants when occasion requires

5 *Village Fund Schools* —The statement of all Village Fund Schools requiring new buildings, extensions or improvements has been prepared with the same care as the one for the State Fund Schools Only such schools are mentioned in the statement as are in absolute need of new buildings extensions or improvements There are altogether 1 398 Village Fund Schools Of these only 558 appear in the statement, the rest being either provided with suitable buildings of some kind or being such as are not likely to be permanent institutions I have grouped villages schools into five classes according to the amount

and nature of the accommodation they require and have obtained plans and estimates for five types of buildings from the Executive Engineer Tumkur divi s on I have tried to make the buildings as neat substantial and economical as possible The cl ssification is as follows —

Des gn	K nd of sch ol	Ma m N mb r on r ll	M xim m N mbe in r g att d	Numbe a d s ze of rooms	Est m ted c st
					R
I	Hobli	40	33	O e 16 × 12 w th ve r ndah 6 w de	00
I	Do	40	33	O e 16 × 1 w thout ve a d h	400
II	Do --	70	7	O e ro m 30 × 1° o two r oon 1ɔ × 12 with ver ndah 8 w de	800
III	Hobl or Taluk B nch	1°ɔ	100	Two r ns 30 × 15 and 15 × 1⁵ respecti ely with v a l h 8 w de	1 300
IV	Do	160	130	Two ro ms h 30 × 15 o o e ro m 30 × 15 and 2 rooms 15 × 15 e ch w th v e r a n d a h 8 wide	1 600
V	Tal k B n h M ddle S ho l	160	130	O e room 20 × 16 and four ro ms h 20 × 12 on the pl f the Am t Tal k B anch S hool	2,850

6 The plans and estimates of the five kinds of Village School Buildings have been prepared by Mr C T Dalal Executive Engineer Tumkur division in consultation with m e He has made the e timates as moderate as possible for substantially built school hous s He proposes to build the walls of burnt brick in mortar $1\frac{1}{2}$ feet thick and 10 feet high with a gable end of 4 feet and to leave them unplastered but coated with two coats of whitewash All the timber used will be teak The windows will be 3 × 5 and each school will have two round glazed ventilators open and shut by a string in the two gable ends of the outer wall It is proposed to use Mangalore tiles for the roof The floor will be made of gravel The buildings will face south east and receive the South West and North East monsoons on the side walls Much thought and care have been expended on the plans and estimates Copies of the five designs have been appended to this memo for refe ence

7 The sta ement showing the present needs of accommodation in all village schools gives the number on the roll and highest class a brief description of the present accommodation and of the improvements extensions or new con structions required the amount of contribution that may be expected from the people and the proposed expenditure

8 The total estimated cost of new constructions extensions and improve ments of village schools according to the statement forwarded herewith is Rs 1 70 198 By districts this amount is distributed as follows —

	R	
B ng l re	31 826	
K l	11 340	
Tumku	41 044	
My N rth	31 341	
My e S th	15 768	
Ch t ld ug	11 723	
Sh m ga	16 1 7	
H n	6 934	
Kadur	3 040	
	1	0 19ɔ

The above figures are approximate The actual wants of Kolar, Hassan Kadur and Mysore South do not appear to have been fully reported by the respective Deputy Inspectors But for practical purposes the totals may be taken as fairly correct

9 The balance on the 1st July 1897 to the credit of the Village School Fund, according to the Preliminary Accounts of 1896 97 is given by the Comptroller to be Rs 3 22 123 This amount includes Government of India Securities of the nominal value of Rs 2 00 000 which cost for their purchase Rs 2 14,559 If the latter amount is deducted from the balance on 1st July 1897, there will be a cash balance left of Rs 1,07 564 From this cash balance, one lakh may be assigned to new constructions, extensions and improvements of village schools The total estimated cost of the new constructions, extensions and improvements required is roughly Rs 1 70,198 I recommend that Government may be pleased to make up the deficiency by a special grant from State Funds of Rs 70 000

10 In conclusion I would add that the question of providing increased accommodation is one of great urgency If the additional accommodation required is not provided within the next two or three years, the difficulty of finding suitable accommodation for the increasing numbers of pupils will be very greatly enhanced and will check the growth of schools The problem is one to which I would earnestly invite the early attention of Government

(Enclosure)

Circular letter No A 2070 121, *dated Mysore, 5th September* 1896, *from the Inspector General of Education in Mysore, to Deputy Inspector of Schools District*

A tabular statement showing the present needs of accommodation in the Taluk Schools of district 1896 97

Taluk in which situated	Name of school	Number on the roll and average number of classes	About description of the present school building	About description of extensions or new constructions required with reference to the proposals	Estimated cost of extensions or new constructions	Remarks

I have the honor to inform you that it is necessary to form an approximately correct idea of the wants of the Taluk Schools in your district in the matter of extensions or new constructions required for the accommodation of the schools You are requested to furnish the information required regarding each school in the tabular form given in the margin at your early convenience The schools may be grouped together under the following heads —

1 Anglo Vernacular Schools

2 Taluk Kannada Schools for Boys

3 Taluk Hindustani ditto

4 Taluk Kannada Schools for Girls

5 Taluk Hindustani ditto

6 Any other schools like Tamil, Telugu or other Government Schools

Care should be taken to form *moderate* estimates of the cost of extensions or new constructions In making these estimates you will be guided by the actual cost of recent constructions in your district The present need of accommodation should alone be considered all prospective increases in attendance being left out of account The style of building contemplated should be of the usual kind for each class of school and not one extravagently expensive Schools already provided with suitable buildings, whether belonging to Government or rented, should not be mentioned in the statement

Eudcation dated 18t'i Decembei 1897

(ENCLOSURE)

Circular letter No A 2284 91 *dated Mysore* ,th *Septembei* 1896 *from the Inspector Ge ieral of Education in Mysoie to Deputy Inspector of Schools District*

A tabular statement showing the present needs of accommodation of all schools maintained from the Local Funds in district 1896 97

Taluk	Village	Kadal No	Number of Acres	Abstract of the proposed improvements	Abstract of the proposed extensions	Abstract of the reasons for the proposed new constructions	Estimated cost	Remarks

I have the honor to inform you that it is necessary to form an idea of the accommodation provided at present for all schools maintained from the Village School *Local* Funds in your district and of the cost of extension or new constructions if any are required You are requested to furnish the information required for each school in the tabular form given in the margin The schools may be grouped together under the following heads —

Anglo Vernacular Schools

Taluk Branch Kannada Schools

Taluk Branch Hindustani Schools

Hobli Kannada Schools

Hobli Hindustani Schools

Other Government Schools

If the present accommodation whether belonging to Government or not is suitable nothing need be mentioned in the column of improvements extensions or new constructions required In the description of the present building it should be stated whether it is katcha or pakka The improvements required are chiefly for light and ventilation Care should be taken to give moderate estimates of the cost of improvements extensions or new constructions It should also be stated how far the people are expected to contribute to the cost

Tabular statement showing the present needs of accommodation of all schools maintained from the Village School Fund in the province

Education dated 18th December 1897

No 7129—Ed 208 dated Bangalore 18th December 1897

Order thereon—The Inspector General of Education is informed that Government are not prepared to at once pass final orders on his exhaustive programme of school buildings to be constructed that suitable provision for the more urgent buildings chargeable to State Funds may be proposed by him from time to time in his annual budget which will be duly considered and dealt with by Government along with the requirements of other departments of the State and that while expressing their inability to make any Special State Grant for village school building, Government will not object to proposals being made in the Village School Fund budgets of the next and succeeding years for the utilization of so much of the cash balance at the credit of the Village School Fund as can be usefully spent upon the construction, extension and improvement of village school
